Type of Service Residential () Commercial () Boat Slip () Construction ()

Mailing Address _____

Telephone Number _____ E-mail _____

Date Service Required _____ Sewer Connection Yes () No ()

To be completed by the Company:

Meter Size _____

Property ID. _____ Subscriber Fee Amount _____

Application is hereby made to PDM Utility Corporation ("PDMU") for water and/or sewer service or related installation at the property's location as described above. The applicant shall become a subscriber when this application is completed in all parts and all the required documentation and payments are submitted.

Applicant and/or Subscriber agree that the water and/or sewer service shall be used only in accordance with the Rules and Regulations of the Corporation on file with PDMU as they may be modified from time to time.

Applicant and/or Subscriber agree to pay the water and/or sewer tariffs set by PDMU. All tariffs become due 20 days after billed. Applicant and/or Subscriber agree to pay interest equal to 1% per month, until full payment, on balance owed over one month, plus legal fees and cost incurred in efforts to collect tariffs due. Subscriber acknowledges that PDMU may refer any debts for collection upon accumulation of one or more months in arrears.

Should Applicant and/or Subscriber fail to pay charges due, it will result in a temporary suspension of service and the service availability charge will continue to accrue for a maximum of thirteen (13) months. Thereafter, a permanent disconnection of service will be in effect, removing the water meter and discontinuing the service availability charge.

A permanent disconnection shall mean that the unit is disconnected from the system for a period of 13 months or more. At a subscriber request, PDMU could permanently suspend the water service, removing the meter and discontinuing the service availability charge. If the subscriber desires to reconnect the service before the 13 months period, in order to reconnect, the subscriber will be required to pay the service availability charge for the entire period of disconnection plus the \$200 reconnection fee to reinstall the water meter.

Subscriber recognizes that PDM Utility Corporation will charge a reconnection fee of \$50.00 for a temporary service suspension and \$200.00 if service is permanently disconnected.

It is understood and agreed that failure on behalf of the Subscriber to give prompt notice to have the water service discontinued when an ownership change occurs, will make the Subscriber liable for all water charges against these premises until the time PDMU receives written notice.
